

Paul O’Gorman

Curriculum Vitae

Department of Earth, Atmospheric, and Planetary Sciences
Massachusetts Institute of Technology
77 Massachusetts Avenue
Cambridge MA 02139
Email: pog@mit.edu
Webpage: <http://web.mit.edu/pog/www/>

Degrees

2004 PhD Aeronautics (minor Applied Mathematics), Caltech
1999 MSc High Performance Computing, Trinity College Dublin
1998 BA Theoretical Physics, Trinity College Dublin

Employment

2019-present Professor of Atmospheric Science, MIT
2012-2019 Associate Professor of Atmospheric Science, MIT
2008-2012 Assistant Professor of Atmospheric Science, MIT
2004-2008 Postdoctoral Scholar in Environmental Science and Engineering, Caltech

Professional Societies

American Meteorological Society, American Geophysical Union

Honors

Graduate Teaching Prize, School of Science, MIT, 2018
Victor P. Starr Career Development Chair, MIT, 2010-2013

Postdoctoral Researchers Supervised

Yani Yuval 2019-present
John Dwyer 2014-2017 (now data scientist in industry)
Dino Bellugi 2012-2016 (now postdoc at Berkeley)
Caroline Muller 2008-2010 (now CNRS Faculty, École Polytechnique, Paris)

Ph.D. Students Supervised

Grace O'Neil	Atmospheric Science (2020-present, co-advised with Raffaele Ferrari)
Matthieu Kohl	Atmospheric Science (2018-present)
Margaret Duffy	Climate Science (2017-present)
Ziwei Li	Atmospheric Science (2016-present)
Charles Gertler	Climate Science (PhD 2020, co-advised with Ron Prinn)
Martin Singh	Atmospheric Science (PhD 2014)
Michael Byrne	Climate Physics & Chemistry (PhD 2015)

UROP Students Supervised

Sarah Weidman (2019-present), Shannon Hwang (2018), Costa Christopoulos (2017), Benjamin Jordan (2016), Rung Panasawatwong (2016), Katrina Hui (2015), Kaylee Brent (2014), Melih Ucer (2013), Reena Joubert (2012), Todd Mooring (2010)

Undergraduate Senior Theses Supervised

Sarah Weidman	EAPS (ongoing)
Rung Panasawatwong	EAPS 2017
Katrina Hui	EAPS 2016
Todd Mooring	EAPS 2011

Teaching Experience

12.003	Introduction to atmosphere, ocean, and climate dynamics (Undergraduate course) Fall 2012, 2013, 2014, 2016
12.312	Understand and run your own climate model (Undergraduate course) IAP 2010, 2011
12.802	Wave motions in the atmosphere and ocean (Graduate course; co-taught with Glenn Flierl) Spring 2009, 2010, 2011
12.810	Dynamics of the atmosphere (Graduate course) Spring 2016, 2017, 2018, 2019, 2020
12.812	The general circulation of the atmosphere and climate change (Graduate course) Fall 2009, 2010, 2011; Spring 2013, 2014; Fall 2019
12.S593	Proposals and Pathways (Graduate Course) Fall 2018, 2020

Internal Service

EAPS graduate education officer (2016-present)
MIT Killian Award Selection Committee (2020-2021)

EAPS 2023 Task Force Working Group Co-Chair (2019-2020)
EAPS Climate Faculty Search (2019-2020)
MIT Committee on Discipline (COD): Associate Chair (2018-2019), member (2015-2019)
PAOC general exam committee chair (2019)
Community Giving at MIT steering committee (2014-2017)
EAPS graduate admissions committee (2008, 2009, 2016)
EAPS ad-hoc education committee (2010-2013)
EAPS climate faculty search committee (2009-2014)
Reading of freshman admissions folders (2013)
Co-organized visits of the UCAR President and a Nature senior editor to MIT (2012)
Faculty liaison for the PAOC website (2012-2016)
Committee for the development and launch of the new PAOC website (2010)
Organized the PAOC Student Open House (2009, 2010)
Gave talks for the freshman introductory 3-day course 'Discover Earth, Atmospheric and Planetary Sciences' (2011, 2014)
Gave talk for the MIT Industrial Liaison Program (2010)
EAPS faculty advisor to course 21 student Roshan Ardhasseril (2011-2013)
Served on PhD thesis committees of Roberto Rondanelli, Brian Rose, Malte Jansen, Alison Wing, Dan Chavas, Daniela Domeison, Martin Singh, Michael Byrne, Yavor Kostov, Aditi Sheshadri, Daniel Rothenberg, Brian Green, Daniel Gilford, Vince Agard, Andy Miller, Erik Lindgren, Tom Beucler, Megan Lickley, Tristan Abbott

External Service

Associate Editor, Journal of the Atmospheric Sciences (2020-present)
Co-organizer of two oral sessions on 'Extreme precipitation in past, present, and future climates' at Fall AGU 2017, 2019
Co-organizer of Lorenz-center workshop on 'Water and climate change: Connecting the paleoclimate record to future projections' 2018
Invited participant in American Society of Civil Engineers (ASCE) workshop on Engineering methods for precipitation under a changing climate, 2017
Invited participant in World Climate Research Programme (WCRP) "Climate Science: Thinking out of the box" workshop, Paris, 2016
Scientific organizing committee member for SPARC Workshop on Storm Tracks 2015
Scientific programme committee member for CNES Conference on Water and Energy Cycles in the Tropics 2015
UCAR member representative for MIT 2009-2014

Gave outreach talk on climate science at the National Science Teachers Association (NSTA) National Conference 2014

Chaired oral sessions at AMS Atmospheric and Oceanic Fluid Dynamics conference 2011, 2013, 2019

Invited participant in strategy workshop on precipitation for the World Climate Research Programme – Global Energy and Water Exchanges Project 2013

Co-organizer of three oral sessions on ‘Atmospheric circulations and climate change’ at Fall AGU 2010

Interactions with media regarding climate-change questions of interest to the public (for example, interviews for NPR and Australian national radio)

Served as PhD thesis reader/evaluator for the University of Chicago, University of New South Wales (Australia) and University of Reading (UK)

Paper reviewer for Journal of Atmospheric Science, Journal of Climate, Geophysical Research Letters, Journal of Geophysical Research, Environmental Research Letters, Surveys in Geophysics, Tellus, Atmospheric Chemistry and Physics, Climatic Change, Nature Geoscience, Nature, Science

Grant proposal reviewer for the NSF, NOAA, NERC (United Kingdom), the Israel Science Foundation (Israel), the Helmholtz Association (Germany), NSERC (Canada)

Book reviewer for Bulletin of the American Meteorological Society and MIT Press

Publications

- Student and postdoctoral advisees underlined
- Available at <http://www.mit.edu/~pog/publications.html> and <http://scholar.google.com/citations?hl=en&user=dmi9JI1IAAAAJ>

Fowler, H. J. et al 2021

Towards advancing scientific knowledge of climate change impacts on short-duration rainfall extremes

Philosophical Transactions A (in press)

Yuval, J., **O’Gorman, P. A.** & Hill, C. N. 2021

Use of neural networks for stable, accurate and physically consistent parameterization of subgrid atmospheric processes with good performance at reduced precision

Geophysical Research Letters (in press)

O’Gorman, P. A., Li, Z., Boos, W. R. & Yuval, J. 2021

Response of extreme precipitation to uniform surface warming in quasi-global aquaplanet simulations at high resolution

Invited Presentations

Penn State University, Departmental Colloquium '*Regional responses of extreme precipitation to climate change: a role for both dynamical understanding and machine learning*' 2021

UCLA, Departmental Colloquium '*Regional responses of extreme precipitation to climate change: a role for both dynamical understanding and machine learning*' 2020

Royal Society, London '*The physical basis for changes in precipitation extremes at different durations*' 2020

AGU Fall Meeting '*Machine learning for parameterization of subgrid processes in the atmosphere*' 2019

Harvard University, Departmental Colloquium '*Regional predictions of extreme precipitation under climate change: dynamical understanding and machine learning*' 2019

Princeton University, Symposium in honor of Isaac Held '*Using Machine Learning to Parameterize Moist Convection: Potential for Simulations of Climate, Climate Change, and Extreme Events*' 2018

MIT Environment-Sustainability Lunch Seminar '*Use of machine learning in climate models: potential for simulations of climate, climate change, and extreme events*' 2018

Caltech Heising-Simons workshop on The Future of Earth System Modeling '*Exploring the potential of machine learning for parameterization of moist convection in simulations of climate*' 2018

Caltech Environmental Science and Engineering seminar '*Changes in the duration of extreme precipitation events with climate warming and links to atmospheric dynamics*' 2017

AGU Fall Meeting '*Duration and spatial extent of midlatitude precipitation extremes across different climates*' 2017

American Society of Civil Engineers (ASCE) workshop on Engineering Methods for Precipitation Under a Changing Climate '*Precipitation extremes under climate change: intensity, duration and phase*' 2017

University of Reading (U.K.) Department of Meteorology '*Moist convection under climate change: An idealized modeling perspective*' 2016

Columbia University, Extreme Weather and Climate Initiative Seminar '*Precipitation extremes, snowfall, and convective storms in a warming climate*' 2016

Lamont Doherty Earth Observatory Colloquium, '*Changing relative humidity over land in simulations and observations*' 2016

University of Chicago, Department of the Geophysical Sciences '*The response of the hydrological cycle over land to global warming: why the "wet-get-wetter, dry-get-drier" scaling does not apply*' 2016

Monash University (Melbourne, Australia) School of Earth, Atmosphere and Environment '*Why the wet-get-wetter, dry-get-drier scaling of moisture convergence doesn't apply over land*' 2015

University of New South Wales (Sydney, Australia) Climate Change Research Centre '*Why the wet-get-wetter, dry-get-drier scaling of moisture convergence doesn't apply over land*' 2015

University at Albany, Department of Atmospheric and Environmental Sciences '*Response of snowfall extremes to climate change: Theory and simulations*' 2014

McGill University, Department of Atmospheric and Oceanic Sciences '*Response of snowfall extremes to climate change: Theory and simulations*' 2014

MIT PAOC retreat, '*Perplexing symmetries and asymmetries in atmospheres, oceans, and climate*' 2014

Max Planck Institute for Meteorology (Hamburg), '*Response of snowfall extremes to climate change: Theory and simulations*' 2014

Stonybrook University School of Marine and Atmospheric Sciences, '*Contrasting changes in mean and extreme snowfall in a warming climate*' 2014

Geophysical Fluid Dynamics Laboratory (NOAA), '*Response of snowfall extremes to climate change: Theory and simulations*' 2014

MIT Lorenz Center Workshop on Water in the Climate System '*Contrasting responses of mean and extreme snowfall to climate change: Theory and simulations*' 2014

MIT EAPS IAP Lecture Series '*An introduction to monsoons*' 2014

U.C. Berkeley, Atmospheric Science Seminar, '*Contrasting responses of mean and extreme snowfall to climate change*' 2013

WCRP-GEWEX Strategy Workshop, CIRA, Fort Collins '*Uncertainties in the intensity distribution of precipitation: dependence on space and time scales*' 2013

University of Wisconsin Madison, AOS Colloquium *'Intensification of precipitation extremes with global warming: Theory, simulations, and observations'* 2013

University of Wisconsin Milwaukee, Department of Physics *'Understanding the response of the hydrological cycle to climate change'* 2013

Northeastern University, CEE Distinguished Seminar Series *'Intensification of precipitation extremes with global warming: Theory, simulations, and observations'* 2013

Two invited talks at AGU Fall Meeting 2012:

- 1) *'Observational constraint on the response of tropical precipitation extremes to climate change'*
- 2) *'Vertical profile of warming in the middle and upper troposphere under climate change'*

WHOI Water-Cycle Workshop *'Land-ocean contrasts in the near-surface response to climate change'* 2012

Yale University, Global Change Seminar *'Response of mean and extreme precipitation to climate change: theory, simulations, and observations'* 2012
